

# Sterillium<sup>®</sup> disinfectant wipes

## Alcohol-based disinfectant wipes

**Aldehyde-free, alcohol-based disinfectant wipes.  
For the disinfection of hands and small surfaces when traveling.**

# Sterillium® disinfectant wipes

## Product properties

Sterillium® disinfectant wipes can reliably reduce the danger of contact infections on hands, skin or small alcohol-resistant surfaces.

The wipe soaked with Sterillium® solution is effective against bacteria, mycobacteria (Tb), fungi and enveloped viruses (incl. HBV, HIV, HCV), as well as rotavirus.

Skin caring additives protect hands and skin, even with frequent use.

Reduction of the germ flora by more than 99.99 % within 30 sec.

- reliably effective against bacteria, mycobacteria (Tb), fungi and enveloped viruses (incl. HBV, HIV, HCV) and rotavirus
- applicable everywhere
- gentle to skin through replenishing substances and skin-protecting components

## Composition

1 wipe with an overall weight of approx. 4.2 g contain: pharmaceutically active ingredients: Propan-2-ol 1.341.00 mg, propan-1-ol 894.00 mg, mecetroniumetilsulfate (INN) 5.96 mg. Other ingredients: Tetradecan-1-ol, glycerol 85 %, fragrances, purified water, paper.

## Microbiological activities

Bactericidal, fungicidal, tuberculocidal, virucidal against enveloped viruses (incl. HBV, HIV, HCV), rotavirus.

## Areas of application

Sterillium® disinfectant wipes are applicable universally and everywhere. They provide safety at work, when traveling and in other hygiene-relevant situations.

The wipe is used for the hygienic hand disinfection and skin antiseptics as well as for the disinfection of small alcohol-resistant surfaces in both, professional and private domains.

For example

- for the hands before and after the care of sick, elderly and babies
- for home dialysis
- for the sterilization of toilet seats, telephone receivers, toys, and the like
- for practice-based doctors when doing home visits
- for emergency physicians on duty
- for beauty salons and podiatry
- for use in sickrooms, sanatoria, kindergartens, animal shelters
- for use in the industry (pharmaceutical and cosmetics industry, food processing)
- for the hands after the care of animals
- when traveling

## Directions for use and dosage

For the skin and object disinfection complete moistening is necessary.

### Hygienic hand disinfection and skin antiseptics<sup>1)</sup>:

use at least 1 wipe .....	30 s
Tb.....	15 s

1) Proof of effectiveness with the agent solution

## Chemical-physical data

pH-value	neutral
Density (20 °C)	approx. 0.85 g/cm <sup>3</sup>
Flashpoint	23.5 °C (DIN 51755)

## Presentation

10 wipes per box, 10 boxes per unit.
